YOUR CUSTOM INCLUSIONS

YOU KNOW THE FEELING...

You're wandering through display home after display home. Each of them has elements you'd love to include in your new home, but none of them quite put the whole package together in the way you would like.

If only you could take a piece of each and combine them into what would be your absolute dream home. At New Home Shop you can!

New Home Shop can combine your ideas into a customised design which gives you exactly what you want. Our skilled tradesman then bring the dream to life.

An example of a custom design home is our display home at Thornhill Park Estate, Rockbank.

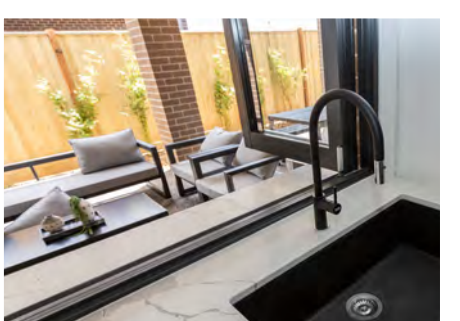

Within this home are a number of features which are above and beyond the usual standard inclusions, including:

and much more!

Whilst a custom home comes at additional cost, it will all be worthwhile when your visitors are admiring the result of your vision.

If you're someone with higher expectations of a new home, contact New Home Shop. We'd be delighted to talk you through the process to deliver a home of which you will be proud for years into the future.
